Namaste!

Welcome to my divine precinct!

A space that gives peace of mind and harmony, leading to prosperity, abundance, and complete joy in life.

Being blessed with the religious and spiritual background, I was always fascinated to deep dive into the basics of life. A severe mishap that I came across was a turning point that led me from "Why me?" to exploring ancient Indian sciences of astrology and Vastu Shastra.

My quest for knowledge progressed into getting a **doctorate in Industrial Vastu** from the **University of Colombo**. Further, I took it up as a profession with the aim to helping in the multi-dimensional growth of mankind.

Breathe in the space that is energized, conforming with your personal birth charts and... experience the integration of science and nature, creating fully functional leeway

With my strong technical background, in-depth knowledge of Vastu shastra that is suitable to the individual's astrological needs, and pure intentions, I have achieved huge success in enriching thousands of lives.

I have created harmonized expanses across the world in a variety of sectors. My commitment muscle drives me to help individuals create awareness through counseling and conducting workshops.

Heal yourself, best utilize the energies, and find your inner peace!
